Join Keri Green for an exciting workshop, exploring the basic principles behind charming, sequential illustrations. With a degree in sequential illustration and over 10 years experience in the industry, Keri will guide you through this half day workshop.

Based on the theme 'A moment at Chew Valley lake', you will have the opportunity to create your very own sequence of images, beautifully capturing a moment or passing of time at the lake. Delve into how imagery, scale and colour can convey emotion, movement and tell a story.

This is a workshop for all abilities, if you have the opportunity to do so, take photographs of the lake, surrounding area, its wildlife or anything that takes your interest prior to this workshop, as these can be used as great starting points. Otherwise references will be provided.
